

Invitation Credit Derivatives Workshop

To register, email your CV and
a cover note by 17:00 on
Sunday, 16 November to:

graduate.recruitment
@credit-suisse.com

Thursday, 27 November 2008
11:00 – 18:30
Credit Suisse Offices, Frankfurt

Looking to leverage your mathematical or algorithmic skills?
Enjoy developing effective solutions to challenging problems?
Want your work to make an impact in the real world?

Discover how Credit Suisse models the next generation of financial instruments and apply your technical and interpersonal skills in a credit derivatives workshop.

Gain an insight into the real world of credit derivatives, and how we as an investment bank trade these products around the globe.

Thinking New Perspectives.

Take the opportunity to learn more about our Global Modelling and Analytics Group (GMAG), meet with representatives from Structuring, Research or Trading, and discuss opportunities for quantitative Masters and PhD students at Credit Suisse, London in an informal atmosphere.

Find out how to apply for quantitative positions in investment banking and meet with representatives from our Graduate Recruitment team. Please note no prior finance knowledge is required.

We will confirm your participation on Friday, 21 November and provide you with further information.
